## LONG MEADOW SCHOOL

## MATHEMATICS CALCULATION POLICY

This policy has been developed to ensure progression and consistency across the school. A range of variations have been included to support the pupils in their understanding of number and calculation. This document should be used to support children to develop a deep understanding of number and calculation. It has been designed to teach children through the use of concrete, pictorial and abstract representations.

- Concrete representation - using objects to introduce a skill or idea to develop conceptual understanding.
- Pictorial representation - children can relate using concrete representations to pictorial representations, such as a diagram or picture of the problem.
- Abstract representation - problems be represented by using mathematical notation

## Year 1 Addition

| Objective \& Strategy | Concrete | Pictorial | Abstract |
| :---: | :---: | :---: | :---: |
| Combining two parts to make a whole: part-part whole model | Use cubes to add two numbers together as a group or in a bar. | Use pictures to add two numbers together as a group or in a bar. | $4+3=7$ <br> Use the part-part whole diagram as shown above to move into the abstract. |
| Starting at the bigger number and counting on | Start with the larger number on the bead string and then count on to the smaller number 1 by 1 to find the answer. | $12+5=17$ <br> Start at the larger number on the number line and count on in ones or in one jump to find the answer. | $5+12=17$ <br> Place the larger number in your head and count on the smaller number to find your answer. |
| Regrouping to make 10 | $6+5=11$ Start with the bigger number and use the smaller number to make 10. | Use pictures or a number line. Regroup or partition the smaller number using the part-part whole | $7+4=11$ <br> If I am at seven, how many more do I need to make 10. How many more do I add on now? |

|  |  | model to make 10. $9+5=14$ <br> 14 4 |  |
| :---: | :---: | :---: | :---: |
| Represent \& use number bonds and related subtraction facts within 20 | 2 more than 5 is 7. |  | Emphasis should be on the language. <br> ' 1 more than 5 is equal to 6 .' <br> ' 2 more than 5 is 7. ' <br> ' 8 is 3 more than 5.' |

Year 2 Addition

| Objective \＆ Strategy | Concrete | Pictorial | Abstract |
| :---: | :---: | :---: | :---: |
| Adding multiples of 10 | Model using dienes and bead strings． | Use representations for base ten． | $\begin{aligned} & 20+30=50 \\ & 70=50+20 \\ & 40+\square=60 \end{aligned}$ |
| Use known number facts： part－part whole | Children explore ways of making numbers within 20. | $\begin{gathered} \square=\square \\ \square+\square=20 \\ \square+\square=20 \\ \square+\square=\square \end{gathered}$ | $\begin{array}{ll} \square+1=16 & 16-1=\square \\ 1+\square=16 & 16-\square=1 \end{array}$ |
| Using known facts． |  | Children draw representations of tens and ones． | $3+4=7$ <br> leads to $30+40=70$ <br> leads to $300+400=700$ |

| Add two 2- |
| :--- | :--- |
| digit numbers |, | Model using Dienes, place value counters |
| :--- |
| and Numicon. |
| 1-digit |
| numbers |

## Year 3 Addition

| Column addition: regrouping | Make both numbers on a place value grid. <br> Add up the units and exchange 10 ones for one 10. | Children can draw a representation of the grid to further support their understanding, carrying the ten. | Start by partitioning the numbers then move onto formal column to show the exchange. $\begin{array}{r} 40060 \quad 6 \\ +30050 \quad 8 \\ \hline 700110 \quad 14 \\ \hline \end{array}$ <br> 466 $+358$ 824 11 |
| :---: | :---: | :---: | :---: |

## Year 4-6 Addition

| numbers of decimal places. |  |  | $\begin{array}{r} 42.463 \\ 8.910 \\ 11.020 \\ +\quad 9.600 \\ \hline 71.993 \\ \hline 21 \end{array}$ |
| :---: | :---: | :---: | :---: |

## Year 1 Subtraction

| Objective <br> \& Strategy | Concrete | pictorial | Abstract |
| :---: | :---: | :---: | :---: |
| Taking away ones | Use physical objects (counters, cubes etc) to show how objects can be taken away. | Cross out drawn objects to show what has been taken away. | $7-4=3$ $16-9=7$ |
| Counting back | Move objects away from the group, counting backwards. | Count back in ones using a number line. | Put 13 in your head, count back <br> 4. What number are you at? |

|  | Move the beads along the bead string as you count backwards. |  |  |
| :---: | :---: | :---: | :---: |
| Find the difference | Compare objects and amounts. <br> Lay objects to represent bar model. | Count on using a number line to find the difference. <br> Draw bars to find the difference between two numbers. <br> James is 8 years old. His brother Jacob is 17 years old. Find the difference in age between them. | Hannah has 12 sweets and her sister has 5 . How many more does Hannah have than her sister? |

| Represent and use number bonds and related subtraction facts within 20: part-part whole model | Link to addition. Use part-part whole model to model the inverse. <br> If 10 is the whole and 6 is one of the parts, what is the other part? $10-6=4$ | Use pictorial representations to show the part. | Move to using numbers within the part whole model. |
| :---: | :---: | :---: | :---: |
| Make 10 | $14-9=5$ <br> Make 14 on the ten frame. Take 4 away to make ten, then take one more away so that you have taken 5 . | $13-7=6$ <br> Jump back 3 first, then another 4 . Use ten as the stopping point. | $16-8=8$ <br> How many do we take off first to get to 10 ? How many left to take off? |

Year 2 Subtraction

| Objective \& Strategy | Concrete | pictorial | Abstract |
| :---: | :---: | :---: | :---: |
| Regroup a ten into ten ones | Use a place value chart to show how to change a ten into ten ones. Use Dienes or place value counters. | Draw representations and cross off. | $20-4=16$ |
| Partitioning to subtract without regrouping | $34-13=21$ <br> Use Dienes/PV counters to show how to partition the number when subtracting without regrouping. | $43-21=22$ | $43-21=22$ |
| Make ten strategy Progression should be crossing one ten, crossing more than one | Use a bead strings to model counting to next ten and the rest. |  | $92-74=18$ |

| ten, crossing the <br> hundreds. |  | Use a number line to count on to next ten and then the rest. |
| :--- | :--- | :--- | :--- |
|  |  |  |

## Year 3 Subtraction

| Objective \& Strategy | Concrete | pictorial | Abstract |
| :---: | :---: | :---: | :---: |
| Column subtraction: no regrouping | $47-32=15$ <br> Use Dienes, Numicon, place value counters, making the larger number first then taking away the smaller number. | $45-23=22$ <br> Draw representations. | Start by partitioning the numbers then move onto formal column. $\begin{gathered} 67-32=35 \\ -60 \quad 7 \\ -\frac{30 \quad 2}{30} \\ \hline 35 \\ 67 \\ -\frac{32}{35} \\ \hline \end{gathered}$ |

| Column subtraction: regrouping | Model exchange of 10 into 1s: Dienes, place value counters, Numicon. |  | Start by partitioning the numbers then move onto formal column to show the exchange. $\begin{array}{r} 61212 \\ 782 \\ -\quad 45 \\ \hline 187 \\ \hline \end{array}$ |
| :---: | :---: | :---: | :---: |

## Year 4-6 Subtraction

|  <br> Strategy | Concrete | Pictorial | Abstract |
| :--- | :--- | :--- | :--- |
| Year 4 <br> Subtract using <br> formal column <br> methods with <br> numbers up to <br> 4-digits | As Year 3. | As Year 3. | As Year 3. |

| Year 5 <br> Subtract with at least 4digits, including money and measures | As Year 4. | As Year 4. | Subtract with decimal values, including mixtures of integers and decimals and aligning the decimal. <br> Use zeros for place holders. |
| :---: | :---: | :---: | :---: |
| Year 6 <br> Subtract with increasingly large and more complex numbers and decimal values |  |  | $\begin{array}{r} 45^{\prime} 27^{\prime} 012 \\ -\quad 29628 \\ \hline 623084 \\ \hline \end{array}$ $\begin{array}{r} \mathcal{Z}^{1} 77.14 \\ 408 \cdot 5^{1} 0 \\ -\quad 37 \cdot 88 \\ \hline 370 \cdot 62 \\ \hline \end{array}$ |

## Year 1 Multiplication

|  <br> Strategy | Concrete | Pictorial | Abstract |
| :---: | :---: | :---: | :---: |

| Doubling | Practical activities to demonstrate doubling． | Draw pictures to show how to double a number． <br> Double 4 is 8 $\square$ $\square$ $\square$ $\square$ $\square$ $\square$ $\square$ $\square$ | Double 4 is＿＿＿ |
| :---: | :---: | :---: | :---: |
| Counting in multiples of 2， 5 and 10 | Count in multiples supported by concrete objects in equal groups． | Draw representations．Can include jumps on a number line． | Count in multiples of a number aloud． <br> Write sequences with multiples of numbers． $2,4,6,8,105,10,15,20,25,30$ |
| Repeated addition | 円円円 <br> Use various objects to add equal groups． | Draw pictures including number lines to solve problems． <br> There are 5 marbles in one bag．How marbles are there altogether in 4 bags？ | Write addition sentences to describe objects and pictures． $2+2+2+2+2=10$ |

| Arrays | Create arrays using cubes or counters. <br> Use objects laid out in arrays to find the answers to 2 lots 5,3 lots of 2 etc. | Draw arrays in different rotations. |  |  | $3 \times 2=6$$2 \times 5=10$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | $\begin{aligned} 2 \times 4=8 & \vdots 2 \times 4=8 \\ & \vdots \\ & \ddots \\ & 4 \times 2=8 \end{aligned}$ |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |

Year 2 Multiplication

|  <br> Strategy | Concrete | Pictorial | Abstract |
| :--- | :--- | :--- | :--- |
| Doubling | Use dienes, place value <br> counters. | As Year 1. | Partition a number and then double each <br> part before recombining it back together. |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |

| Counting in <br> multiples of 2, <br> $3,4,5,10$ <br> from 0 <br> (repeated <br> addition) | $5+5+5+5+5+5+5+5=40$ <br> As Year 1, link to repeated addition. |  |
| :--- | :--- | :--- | :--- |
| Multiplication |  |  |
| is |  |  |
| commutative |  |  |
| Create arrays as in Year 1. |  |  |

Year 3 Multiplication

## Year 4 Multiplication

Year 5-6 Multiplication

## Year 1 Division

| Objective \& Strategy | Concrete | Pictorial | Abstract |
| :---: | :---: | :---: | :---: |
| Division as sharing | I have 10 cubes; can you share them equally in 2 groups? | Children use pictures or shapes to share quantities. <br> 8 shared between 2 is 4 . <br> 4 <br> 4 <br> 4 | Share 9 cakes between 3 people. |

## Year 2 Division

| Objective \& Strategy | Concrete | Pictorial | Abstract |
| :---: | :---: | :---: | :---: |
| Division as sharing | As Year 1. | As Year 1 but children use bar modelling to show and support understanding. | $12 \div 4=3$ |
| Division as grouping | Divide quantities into equal groups. Use cubes, counters, objects or place value counters to support understanding. | Use a number line for grouping. <br> Think of the bar as a whole. Split it into the number of groups you are dividing by and work out how many would be within each group. <br> 20 <br> $l$ | $30 \div 5=6$ <br> Divide 30 into 5 groups. How many are in each group? |

## Year 3 Division

| Objective \& Strategy | Concrete | Pictorial | Abstract |
| :---: | :---: | :---: | :---: |
| Division as grouping | Use cubes, counters, objects or place value counters. | As Year 3 with the bar model. <br> Use a number line to show jumps in groups. <br> The number of jumps equals the number of groups. | How many groups of 6 in 24? $24 \div 6=4$ |
| Division with arrays | Link division to multiplication by creating an array and thinking about the number sentences that can be created. $15 \div 3=5,5 \times 3=15,15 \div 5=3,3 \times 5=15$ | Draw an array and use lines to split the array into groups to make multiplication and division sentences. | Find the inverse of multiplication and division sentences by creating four linking number sentences. $\begin{aligned} & 7 \times 4=28 \\ & 4 \times 7=28 \\ & 28 \div 7=4 \\ & 28 \div 4=7 \end{aligned}$ |

| Division with remainders | $14 \div 3=$ <br> Divide objects between groups and see how much is left over. | Equal jumps in a number line then see how many more you need to jump to find the remainder. $35 \div 3=11 r 1$ <br> Draw dots and group them to divide an amount and clearly show a remainder. |  |  |  | Complete written divisions and show the remainder using r . <br> Introduce the vocabulary of division: dividend, divisor, quotient, remainder. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

Year 4-6 Division

|  <br> Strategy | Concrete | Pictorial | Abstract |
| :--- | :--- | :--- | :--- |
| Year 4 | Consolidate Year 3. <br> Children need to be secure in division facts (linked to <br> multiplication facts) and their understanding of <br> division, with and without remainders. | Consolidate Year 3. | Consolidate Year 3. |
